My Biography

Bondac Ion

Bondac Ion grew up in Balti and is currently studing in the 10 th grade in "Mihai Eminescu" Theoretical Lyceum. As a student, he already has some outsdanding achievements and continues to do his best. He has already participated to a wide range of Olimpiads and always managed to gain good results. He also participated in the "Youth Parliament" Moldova project, that was organized by Invento with the support of Hans Seidel foundation and American Council in Moldova. He also loves to enter different projects and find new opportunities. Ion plans to pursue a IT university and become a qualified IT worker. He also wants to try himself in politics, when he grows older.

Recomandation Letter

Bondac Ion

20.01.2021
Ion Axenti
Manager
Studentilor
9/11, Chisinau

Dear Mr.
Axenti,
I am writing to apply to become a member of Tekwill. I am interested in technologies and programming. Also, I have experience working with Tekwill, since I have participated to Terwill's C++ and Java project. I was working as a student,but now I want to teach others programming.

I have minimal experience but, I am hard-working and showed my abilities at Olympiads and strong determination at different projects. I have demonstrated good learning abilities and programming skills. I am responsible and effectively do all my assingnments.

My results provide evidence of my strong teaching and capacities. I worked very well with my peers and supervisors. I am willing to work hard and achieve new results, that is why, I want to cooperate with Tekwill, becoming an expert in technologies and programming.

With respect,
Bondac Ion
Student
"Mihai Eminescu" Theoretical Lyceum
